

5th Grade Newsletter

6/11-6/15

Greetings, Parents!

I cannot believe it this is the last newsletter you will receive from me! My time with these students has flown by way too quickly!

I would like to say a HUGE thank you to Jen Tourtillott who has helped me immensely over the past few months! Jen has been writing lesson plans for me, meeting with me, and guiding me in helping your students develop their writing skills! She has saved me time and provided me with an abundance of much appreciated support!

Please watch for a permission slip for our end of the year celebration. If you could get that filled out and returned to us ASAP, we would greatly appreciate it!

The end of the year is coming up so quick! Please log into Alma and check your students grades! Contact me with any questions!

Week at a glance...

Bible: We are finishing up our study on Miracles this week using Lee Strobel's *The Case for Miracles*.

Language Arts: We are working on Unit 15: Digging for Compliments.

Reading: We are reading the book *Wonder* and completing some character analysis activities. I plan to show the movie in class this week. If you have not already returned the permission slip for your child to watch, please do so ASAP. I will attach it with the newsletter in case you need a new one.

Writing: The students have been working hard on their 5 paragraph essays covering what they have learned this year spiritually, academically, and socially. They will have finish typing their final copies on Monday. Tuesday they will get to share their essays with the class. Mrs. Pollard and Mrs. Flores are also going to come to hear them!

Social Studies: We will not have a unit test! We will end our year with the conclusion of WWII and review the history and geography covered this entire school year! Mr. Manley's dad, Private Ed Manley was interviewed on John Carlson's Seattle Radio Show on the 6th of June during the morning drive. Here is the podcast link if you would like to listen

<http://kvi.com/podcast/carlsoncast-june6-8am-hour-2018>

Math: We will be playing games to review what we have learned this year. The dates for the summer math workshops are July 9-20 and August 13-24. Fliers and sign up sheets for these will be going home with the students on Monday 6/11.

Art: We are working on a fun project to give to our dads and heroes in our lives.
